MEMORANDUM FOR: [REDACTED]

25X1A

I would greatly prefer that CIA people who are on nonreimbursable loan to the Operations Coordinating Board go on the OCB payroll.

In the case of the receptionist, I do not think that it would make a difference, and, if it did, we could certainly find another receptionist who didn't have any preference as to which payroll she was on.

25X1A      Insofar as [REDACTED] is concerned, I do not believe that he would be treated unfairly. In fact, when the budget was put through last year the fine print, which Mr. Dulles was not aware of, created a relationship for Pete with CIA which did not exist prior to that time. As you know, we have agreed that his re-employment rights at CIA are at the grade GS-16 level and not at grade GS-17 which he now holds with the Operations Coordinating Board and to which he was promoted while with the Psychological Strategy Board.

Therefore, I do not agree that we should obtain the concurrences of the individuals involved prior to agreeing that they should be carried on OCB rolls.
